

SOFT CONTROL INTEGRATION

values

THE SCI ENVIRONMENT

Business is conducted in an atmosphere of professional entrepreneurship. SCI perspective is global, thus constant change is inevitable as we strive to be innovative in a highly competitive market. Successful growth is achieved through individuals committing themselves to customer satisfaction and 'the greater good of the company'. This is to enhance the pervading sense of purpose – of building for the future.

SCI has a Long-Term View of Business

SCI IN BUSINESS

To be proactive and achieve innovation, one must be passionate about business. However, the aggressive business attitude is always influenced by the deep respect for human dignity and ethics so essential in negotiation. At SCI, we believe in the notion of 'a deal is a deal'. It is expected that all who interact with SCI mirror this strong sense of business ethics that characterize operations. This sense of dignity is harnessed in entrepreneurial individuals who are businesspeople, who respond to quick-paced action and change effectively, realizing the opportunities and outperforming the competition.

SCI is Passion and Competence in Business. We Play to win!

THE SCI FAMILY

In a dynamic, innovative industry, only a certain type of businessperson flourishes. SCI is best suited to the assertive self-starter who operates best in a team environment. Competency combines with honesty when one respects the dignity of others in all transactions. We do not hide bad news from each other. SCI recognizes and rewards performance, banking on the high level of intellectual capital available and supporting ambitious businesspeople with clearly defined company and personal goals. When a group of winners work together, the result is success.

SCI is Success.
